Killing

Subhumans

Advisory - the following lyrics contain explicit language:

You, you're driving me insane
But you know there's something wrong with my brain
My head is really in a whirl
Where you look just like a normal girlChorus:
But you don't really care
It happens everywhere
You don't give a shit
Forget about it, forget about it
ForgetI was living in a plastic bag
I dindn't know what to do
I didn't know she was a slag
Well what would you do?
What would you do?ChorusI didn't know I killed her
I was out of my mind
She only wanted my money
But she made me blind
She made me blindChorus
