skullduggery

Ignition Technician

Thought I was cool when I
Played in school for all my family
Had a smile for quite a while
But now I finally see
All the girls at your feet
Made you want to play for free
Now I know they got my soul
I was too damn blind to see
{Chorus}:
Skullduggery
Skullduggery
Skullduggery
Skullduggery
Outta sight, everything's alright
Are the words that fed my head
Don't look now, if you turn around
You might just wind up dead
Got our crew and lookit fool
The gun's aimed at your head
Play all night, better get it right

Tomorrow call the feds
{Chorus}
It's too late baby but it's alright
'Cause we're gonna
Make it with you tonight
The world outside's livin' all alone
'Cause we've been makin'
Plans of our own
{Chorus}
Had your fun now your work is done
You've just been usin' me
All the while had a big bad smile
But not quite like your fee
You've been a jerk for what it's worth
A friend is what I need
Now I know that you're the fool
And I am finally free
{Chorus} [2x]
