I Don't Like You

Kat McSnatch

I have something to confess
It may get me in a mess
I must get it off my chest

When you know I'm home alone
and I still don't pick up the phone
It's because

I don't like you

I would rather take a nap,
than to all your crap

Is this getting through?

Give up loser
Go away

I got better things to do with my day

Get it through your head

I don't like you

It's not me, it's you

Please go get a clue
I can not explain...
What's wrong with you brain

Go jump off a bridge

I don't like you

If you've got the
wrong idea

I can make this
crystal clear

I don't return your calls

coz I don't like you

Sometimes I think
"what the heck"

Next time I'll punch you
in the neck

Stay away
I don't like

You're driving me to homicide
Nobody'd notice if you died...

It's because they
don't like you

There's nothing to discuss
I hope you get hit by a bus

Why don't you
kiss my ass

I don't like you

It's not me, it's you

Please go get a clue
I can not explain...
What's wrong with you brain

Go jump off a bridge
Go die in a ditch

Just piss off you
stupid bitch

I don't like you
