

Call Me

Ringo Starr

Call me if you wanna see me
Call me if you still believe me
'Cause I'm not gonna hide
No, I'm not gonna hide from you If you still think you need me
Like I do, I want you to feed me
With your love, I'll be strong
With your love, I'll be strong and carry on Don't be hurt by what you've seen, dear
I know it's like a dream, dear
Remember, I slept too
Remember, I slept too with you It's time that we both went through it
If we don't, then we know we'll blow it
'Cause we've gotta give it a try
(Gotta give it, give it a try)
Yeah, we've gotta give it a try, yeah, you and I We tried
(We know that we tried)
But we didn't make it
(We tried, you know that we tried) Now we don't
(We don't, you know that we don't)
Ever have to fake it
(We tried, you know that we tried)
Well, we'll go on our way
(Go on our way)
Yeah, we'll go on our way, it's a brand new day Call me if you wanna see me
Call me
(Call me, call me)
If you wanna still be my friend
You can call me
(Call me, call me)
If you wanna see me again Why don't you call me?
(We tried, you know that we tried)
You can call me
(We tried, you know that we tried)
If you wanna still be my friend
(We tried, you know that we tried) We tried, you know that we tried, ah
We tried, you know that we tried
We tried
