

# Shine (feat. Phil Ade)

## Los

There's no light in this room  
It's alright we've got you  
You shine like gold  
Like gold  
You walk by  
Cause a scene  
All the guys they agree  
You shine like gold  
Like gold yeahEverybody got a favorite girl  
Beautifulest thing in this world  
And I want to get in ya  
And I want to get in ya  
Your goals your dreams  
Your life your interests  
You shine like gold to me  
Love take a hold of meYou are everything I ever wanted be my lady  
So I had to take this opportunity to sayJust like my favorite song  
Every time you play I sing along  
Baby my number one girl is youThere's no light in this room  
It's alright we've got you  
You shine like gold  
Gold  
Your walk by  
Cause a scene  
All the guys they agree  
You shine like gold  
Like gold yeahFantasies of a mountain trail  
I'm a knight, you're a nightingale (can't you tell)  
By the way that I talk to you  
By the way that I look at you  
We a merry-go-round, our love go round and round  
She my scream machine  
We go up and downYou are everything I ever wanted be my lady  
So I had to take this opportunity to sayJust like my favorite song  
Every time you play I sing along  
Baby my number one girl is youThere's no light in this room  
It's alright we've got you  
You shine like gold  
Gold

You walk by  
Cause a scene  
All the guys they agree  
You shine like gold  
Like gold, yeah
