

Womb with a View

G.B.H.

You want a house and a child but you don't want a man.
You'll live off the state as long as you can.
Claim you're equal with your feminist wit.
If you are you'd better act like it. With a glass plate in your stomach,
everyone will look at you
The only woman in the world,
to have a womb with a view Men are the evil, women are good.
You joined the CND just like you should.
Greenham Common the new Babylon.
Campaign all you want they'll still drop the bomb. Burn your bra then whine for support.
Independence is a thing that can't be taught.
Life was rosy for the little girl.
Then you lost your virginity to the male world.
