Blame It On the Rain

Michael Johnson

Call it a day, throw your memories away
You got your reasons and I got mine
Don't waste your time while you're still in your prime
But I can't keep on flying blindLet's blame it on the rain, not the flowers and champagne
You always wanted just the best, take the finest, leave the rest
And blame it on the rain, we just never felt the same
Guess I couldn't say I knew what love has meant to youSo leave me the sadness and the pain
And blame it on the rainThese tears only fall whenever you call
But I never intended to let them show
I'll pack my sorrow, think of tomorrow
'Cause love may come and love may goLet's blame it on the rain, not the flowers and champagne
You always wanted just the best, take the finest, leave the rest
And blame it on the rain, we just never felt the same
Guess I couldn't say I knew what love has meant to youSo leave me the sadness and the pain
And blame it on the rainLet's blame it on the rain, not the flowers and champagne
You always wanted just the best, take the finest, leave the rest
And blame it on the rain, we just never felt the same
Guess I couldn't say I knew what love has meant to youLet's blame it on the rain, not the flowers and
champagne
You always wanted just the best, take the finest, leave the rest
And blame it on the rain
