Close To Home

The Get Up Kids

Summer swallowed us whole
Waited for you to come around
Every word you wrote down
We read it over to know, would they believe in us now?
There's no shame like no sound from sources hits close to home
Everything that we've found says make your own destinyBut you're unaware that you should be scared
Maybe you'll learn from mistake that we make
Not waiting forever
We know you'll never be there
Not waiting forever
But if you get out we'll see you thereSummer swallowed us whole
Waited for you to come around
There's no shame like no sound from sources hits close to home
Everything that we've found says make your own destinyBut you're unaware that you should be scared
Maybe you'll learn from mistake that we make
Not waiting forever
We know you'll never be there
Not waiting forever
But if you get out we'll see you there
You're not awake as I'm aware
