

# Reach Down

## A Telemetry

you and I we share  
the same existence  
with different ideals  
we feel the same things  
but share know balance  
loss of concentration to the reason  
how do we overcome this

reach down  
to the depths of inner strength  
the polarized can congregate

reach down  
sooth the anger to captivate  
a last ditch run is not to wait

you and I we act on things  
we'll never take back  
we grow further away  
not caring what time may bring  
we lose ourselves  
and lose the traits  
that can only bring us closer

reach down  
to the depths of inner strength  
the polarized can congregate

reach down  
sooth the anger to captivate  
a last ditch run is not to wait

high time is now  
to balance opposites  
low times must pass  
our existence relies on change

reach down  
to the depths of inner strength

the polarized can congregate

reach down  
sooth the anger to captivate  
a last ditch run is not to wait
