

# Mean Streak

## Gamma

I gave you all my loving  
At first I had a dozen  
But I ain't doing nothing to ever do you like that  
But then I caught you creeping  
Secrets that you were keeping  
Like every other weekend  
Why you do me like that So now you say you take it all back  
Yeah, that don't mean jack  
Cause I know the facts  
I swear you must be smoking that crack  
I'm dipping so fast  
Yeah, I don't need that  
Now you're running your mouth  
But there's nothing that can slow me down  
You're messing around  
Got me thinking that it's time to you go  
Ooh, ooh, ooh, ooh, ooh  
Cause I'm not listening, no  
Ooh, ooh, ooh, ooh, ooh  
I see you move your lips, but it sounds like gibberish I don't need to uncover  
Rising way up above ya  
Go run and tell your mother  
Why you do me like that  
Good luck with all the others  
Don't care about the number  
You all deserve each other  
Why you do me like that  
So now you say you take it all back  
Yeah, that don't mean jack  
Cause I know the facts  
I swear you must be smoking that crack  
I'm dipping so fast  
Yeah, I don't need that Now you're running your mouth  
But there's nothing that can slow me down  
You're messing around  
Got me thinking that it's time to you go  
Ooh, ooh, ooh, ooh, ooh  
Cause I'm not listening, no  
Ooh, ooh, ooh, ooh, ooh

I see you move your lips, but it sounds like gibberish These girls like to talk, wait a minute I'm talking back (shh)

Say that she wanted to love me forever, but I was just trying to smash

First date and I'm taking it back

Bought herself a ring, I didn't take her to Jared's

Russell Wilson and she'll be making a pass

We just met, but I think she arranging a marriage

Like, stop, just hold up

Not the type to get hopes up

I go hard like I'm suppose to

But you back down like a post up

Oh wait, is that my poster

Album signed by yours truly

I swear you said that you don't know me

But girl it looks like you kinda knew me

Oh shit, obsessed, but i'm already undressed

Already got like 99 problems, and I ain't trying to confess

I did my best to move away

But she follow me with that bouquet

So I shaved my head, bought a toupee

But she too smart like Lupe Now you're running your mouth

But there's nothing that can slow me down

You're messing around

Got me thinking that it's time to you go

Ooh, ooh, ooh, ooh, ooh

Cause I'm not listening, no

Ooh, ooh, ooh, ooh, ooh

I see you move your lips, but it sounds like gibberish
