Neptune City

Nicole Atkins

You can't see me from this view
All the way down
Trailing the procession
I'll hide out a few more days
Then I'll be leaving this place soonOur hearts are singing out just for you
A cemetery song for summer
And if we knew just what we could do
A cemetery song we'd not singI'm sitting over Neptune City
I used to love it
It used to be pretty
I'll come down, walk around a while
Until I'm sure I can never go home againMaybe if I paid attention
I could learn to love the landscape I was born to
By the river in the rain
Let it make me new againOur hearts are singing out just for you
A cemetery song for summer
And if we knew just what we could do
A cemetery song we'd not singI'm sitting over Neptune City
I used to love it
It used to be pretty
I'll come down, walk around a while
Until I'm sure I can never go home again
