

Hell Yeah!

Midnight Red

Hell yeah let's crash a party like we don't care, Whoa
Hell yeah let's crash a party like we don't care(Verse 1)

We rock the party, we got it locked down
Call up all your friends so we can take this down
Trip me, Go all out, hit it like a leader!
Tonight we'll kick it like Beckham do
Girl my only Goal is to score with you

Then we go all out work it like a leader You know we all graduated from the school for cool

Play it stupid play it dumb play em all like fools!(Chorus)

Hell yeah let's crash a party like we don't care, Whoa
Hell yeah, Said I want it all right now and right here, Whoa

We're gonna make your head spin it round and round
we're gonna take you there let's get loud

Hell yeah, let's crash a party like we don't care

This will make your heads spin(Verse 2)

It's no illusion the baddest hands down

Like the way you move it how you bump and grind

Let me, Take control, work it like a leader,

And if you want me tonight go all out and hit it like a leader You know we all graduated from the school for cool

Play it stupid play it dumb play em all like fools(Chorus)

Hell Yeah! Let's crash a party like we don't care! Whoa

Hell yeah! Said I wouldn't but I know it right here Whoa

We're gonna make your head spin it round and round

We're gonna take you there, Let's get loud

Hell yeah! let's crash a party like we don't care!

This will make your heads spin!(Bridge)

Turn out the lights and lose yourself tonight

(touch somebody's body)

It's alright to lose yourself tonight

(If you want it want it)

And take your chance and do just what you like

(Do just what you like)

And take your chance and do just what you like, Whoa(Chorus)

Hell yeah

Hell Yeah

We're gonna make your head spin it round and round

We're gonna take you there, let's get loud

Hell Yeah let's crash a party like we don't care

This will make your heads spin!
