Stick Around

Swirl 360

When you're feeling lost and lonely
When the world just gets you down
Is there anyone
Where you come from
That'll help you out

'Cause if you need someone to talk to
And if you need a little sympathy
Well don't you know
If you're feeling low
Well you can count on me

So don't you worry, don't you cry
'Cause I'll be here for you tonight
And if you want me to
You know I'll stick around

I told you once, I'll tell you twice
I'll always be right by your side
And if you want me to
You know I'll stick around
Stick around

And if there's nothing going your way
And you want to make a brand new start
Then let's tear down
The walls around
Your broken heart

'Cause if you need someone to lean on
And if you want to make a brand new friend
Well can't you see
If you turn to me
I'll be here till the end

So don't you worry, don't you cry
'Cause I'll be here for you tonight
And if you want me to
You know I'll stick around

I told you once, I'll tell you twice
I'll always be right by your side
And if you want me to
You know I'll stick around
Stick around

You're out there on your own
Feeling so alone
Feeling like the world is crashing
Down on you tonight
And all you really need
Is a little company
You can't hold out forever
Forever forever forever
Stick around
Should I stick around
