Blood Brother

The Mission

I gave you flowers and you gave me faith
We are minds and hearts that move as one
Chameleon, warrior, gypsy and brave
Turn our eyes to the heart of the rising sunYou and me, we are blood brothers
You and me, we are blood brothers
Blood brother, lay down your life for me
Lay down your love for meKiss by kiss, touch by touch, we talk of clouds that walked
You took my hand and walked me through the rain
An act of love, mission and tender mercy
We stood tall and proud together, we can't get hurt againYou and me, we are blood brothers
You and me, we are blood brothers
Blood brother, lay down your life for me
Lay down your love for meWe pull your punch and we gave them hell
The feeling's dry and the chains will tell
Manors and sand and seas and land with the winds to come
And we rose again to win the war to rule and reign and harvest soil
Hands held high, stars in the sky and we kissed the ever faithful lome
I spread your loveFather, you're a good man and honest man, a saint not heard
Mother, I wish I could tell you I love you
Sister, you're a goddess and I want you to take me to heaven
Blood brother, you're a hand on my heart
And your innocence lay bare and bleedingYou and me, we are blood brothers
You and me, we are blood brothers
Blood brother, lay down your life for me
Blood brother, lay down your love for meLay down your life for me
Blood brother, lay down your love for me
Blood brother, lay down your life for me
Blood brother, blood brother, blood brotherGod, I feel so strong but I just want to break down and cry
God, I feel so strong but I just want to break down and cry
God, I feel so strong but I just want to break down and cry
God, I feel so strong but I just want to break down and cry
