Don't Ever Look Back

Autre Ne Veut

Now this getaway
You find this is not me
Im listening and watching babyAnd I will not find a way to say you dont baby
This is not a hunger babyAnd now the sky fall
But anyway you dont think this is how you feelin babyAnd I will be far away
Then you dont want
This is cannot be a way now
You wanna know that Im wellIll be the fire
Now and maybe foreverDo you never know what you want?
This is my fire thats here burninYou cant wait for me in the snow
You said early afternoon shortyDont ever wanna fight
Said stop, dont let anyone through meI dont ever wanna die
Feel stubborn til you come back to me, meWell Ill be there for long
And maybe forever moreI said I said I said Imma say
Dont ever look back
You said never find left and burnin
And Ill water you, Im lovin you
You left for me this box
You said hurry and to never come late
Far away, far awayIm never coming back
You said stand right there, then come to me
Let it out now now now nowYou ever wanna try
You said stand there, then come to meNothing in our world
Ill be there for and nowhere
Maybe forever
