

Nothing Like Plastic

[Ryan Cassata](#)

[Verse 1]

Everybody wants somethin' from me
Everybody wants somethin'
Everybody takes somethin' from me
Take my words, take my vice
Everybody wants somethin' from me
Everybody wants somethin'
Everybody takes somethin' from me
Take my words, take my vice

[Chorus]

I'm just trying so hard to make you understand
I'm not tryin' to liberate you, I'm showin' ya how to dance
If you want love, you got it, here I stand
It takes nothing like plastic deep down in the sand
If you want love, you got it, here I stand
If you want love, you got it

[Verse 2]

You better take somethin' from me
You better take somethin'
You better take somethin' from me
Take my hand, take this dance
You better take somethin' from me
You better take somethin'
You better take somethin' from me
Take my hand, take this dance

[Chorus]

I've been trying so hard, don't you understand?
I'm not tryin' to liberate you, let's dance!
If you want love, you got it, here I stand
It takes nothing like plastic deep down in the sand
If you want love, you got it, here I stand
If you want love, you got it

[Bridge]

You better take somethin' from me
You better take somethin', girl
You better take somethin' from me

You better take me, you better take me
You better take somethin' baby
You better take somethin', girl
You better take somethin' from me
You better take me, you better take me

[Pre-Chorus]

[?] fearless heart

When you wish upon a star
These dreams, these dreams
They're so surreal!

[Chorus]

If you want love, you got it, here I stand
It takes nothing like plastic deep down in the sand
If you want love, you got it, here I stand
If you want love, you got it

[Outro]

Oh, yeah!

If you want love, you got it, here I stand
It takes nothing like plastic deep down in the sand
If you want love, you got it, here I stand
If you want love, you got it
If you want love, you got it
If you want love, you got it (Yeah, yeah)
If you want love, you got it
If you want love, you got it
You got it, girl
