Evil Inside

Amorphis

Kiss the devil's mark like a self denial
Without temptation she suffers from shame
Prodigious perversions
It's her final dimensionFeel affection for her longings
Lamentation for no reason why
Deep mistrust over matter
Seduce its will to melt awayShe's plagued with pain making me insane
Passionate repulsion
Kiss the evil inside that you cannot deny
Smiling at your sufferingFeel affection for her longings
Lamentation for no reason why
Deep mistrust over matter
Seduce its will to melt awayKiss the devil's mark like a self denial
Without temptation she suffers from shame
Prodigious perversions
It's her final dimensionShe's plagued with pain making me insane
Passionate repulsion
Kiss the evil inside that you cannot deny
Smiling at your sufferingFeel affection for her longings
Lamentation for no reason why
Deep mistrust over matter
Seduce its will to melt awayFeel affection for her longings
Lamentation for no reason why
Deep mistrust over matter
Seduce its will to melt away
