

My Moment

Rebecca Black

[Rebecca Black]

Weren't you the one who said that I would be nothing

Well, I'm about to prove you wrong

I'm not the only one who believes in something

My one wish is about to come true I'm not stopping for you

No matter what you do

I'll just keep on dreaming

My head up in the clouds when nobody's around to see...[Chorus]

This is my moment, my moment

It's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows this is my moment, my moment It's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows this is my moment, my moment [Rebecca Black]

You knew it all along, I was afraid of you

I thought I couldn't be myself

You tried to be my friend

But I wouldn't let you

Remember what you said

Don't miss out on your chance

Your life is in your hands

So take it just as far as you can

But trusting in yourself, forget everyone else

Believe...[Chorus]

This is my moment, my moment

It's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows this is my moment, my moment It's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows [Bridge]

Haters, said I'll see you later

Can't talk to you right now

I'm getting my paper

Said I'm doing big things

Things you never dreamed of

I hope you are happy cause I'm 'bout to blow up[Chorus]

This is my moment, my moment

It's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows this is my moment, my momentIt's my time, flying high, lime light

Feels like my moment, my moment

I've waited for so long

But now everybody knows this is my moment, my moment
