

Country Done Come To Town

[John Rich](#)

I'm just a country boy and yes I do enjoy
Showing them city folk my hell raising ways
Valet my muddy truck in a highfalutin' club
I holler "howdy" just to see what they say They say oh whoa
Country done come to town
So put your gucci shoes up
And pull your roller cases out We're gonna have ourselves a hell raising time
Yeah we're gonna party like cowboys tonight
Singin' oh whoa
Country done come to town I give the girls a wink I buy the boys a drink
I keep on tipping 'til they play me some hank
And when they finally do I show 'em my boot scoot move
By closing time they're all talking that twang Sayin' oh whoa
Country done come to town
So put your gucci shoes up
And pull your roller cases out We're gonna have ourselves a hell raising time
Yeah we're gonna party like cowboys tonight
Singin' oh whoa
Country done come to town A stetson hat
A button down
A rowdy crowd
Can I get a hell yeah? Whoa whoa
Country done come to town
So put your gucci shoes up
And pull your roller cases out We're gonna have ourselves a hell raising time
Yeah we're gonna party like cowboys tonight
Singin' oh whoa
Country done come to town Singin' whoa whoa
Country done come to town
Singin' whoa whoa
Singin' whoa whoa Singin' whoa whoa
Country done come to town
Country done come to town
Country done come to town
