

Revelation

Black Veil Brides

The glory of the nation dies
The symbol of this war is coming
A warning meant to save our lives
From F.E.A.R religion

Out of the depths we crawl to light
Never give in when the fire rises
Standing here we are unified
Our hearts bear crosses

Can't turn back, now
We are, we are the revelation
So scream it out loud
We are, we are the birth of a nation
So join as one
It's time to raise our flags up high
We are, we are the revelation
So scream it out loud!

(The sound of a notion)

There are no stars in the sky
No sight of what was freedom
Where do we turn when our brothers die
In a fight worth winning?

We are legions mesmerized
By the fools that killed our vision
Won't stray or apologize
For their decisions

Can't turn back, now
We are, we are the revelation
So scream it out loud
We are, we are the birth of a nation
So join as one
It's time to raise our flags up high
We are, we are the revelation
So scream it out loud!

(Sound of a nation
Sound of a nation)

(GUITAR!!!)

Can't turn back, now
We are, we are the revelation
So scream it out loud
We are, we are the birth of a nation
So join as one
It's time to raise our flags up high
We are, we are the revelation
So scream it out LOUD!

(Sound of a nation
Sound of a nation)
