

# Hand of Love

## The Sound

When nothing is coming your way  
And nothing's going right  
You're walking with an angel in your dreams  
But walking the night in your life  
What does the future hold  
As it shows a hand so cold  
Where is the hand of love You've been hurt before  
You remember the times  
And still you want to take your place  
With the hopeful and the blind  
And when you start to feel  
All your wounds begin to heal  
You've found the hand of love
