He's Mine

Ashley Martin

He's Mine

Verse 1:

I've never been the jealous kind
But that boy you love...he's all mine
Yeah, you might think you've won his heart
But it's been mine right from the start.
That ring don't mean, that he's leaving me for you
Just because you're standing where I used to.

Chorus:

Cause I was his first kiss, I was his first dance;
I was the first one to fall in love holding his hand.
He rocked my world, he held me tight;
And for years I've been his only Valentine.
That boy you love, he is mine.

Verse 2:

Letting go like this, don't come easy
Guess I need him more now than he needs me
So tonight I'll pray that you both find joy
And God forbid that you ever hurt that boy
Yeah just because you're taking his last name
Doesn't mean you'll ever take my place.

Chorus:

Cause I was his first kiss, I was his first dance;
I was the first one to fall in love holding his hand.
He rocked my world, he held me tight;
And for years I've been his only Valentine
That boy you love -- he is mine.

Bridge:

He's got his father's eyes, he's got my stubborn side.

And you'll know what I mean when you hold your baby tight...

Cause you'll be his first kiss, you'll be his first dance
You'll be the first to fall in love holding his hand

He'll rock your world, he'll hold you tight
And for years you'll be his only Valentine.

But that boy you love...he is mine.
