Million Different Ways

Sugababes

Every time I go down your street, I pray we'll meet
I look around and nothing's changed
But all this time has separated us
Press rewind and stop the tapeLet's play it from the start
And pause before we part
We're laying down againSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysTo love me, to love you
(To love me, to love you)
To love me, to love you
(To love me, to love you)
To love me, to love you
To love meAnd now we're face to face
We can't find words to communicate
We can't go on hiding there's something wrong
Press rewind and stop the tapeReplay it from the past
Confusing what we had
Can't try it out againSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysTo love me, to love you
(To love me, to love you)
To love meNobody's ever come close to us
I thought that this time we might pull through
But the tape's distorting the tune
I can't hear youSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysSo whatever you wanna do
And whatever you're gonna say
From the minute you find it
You know that there's a million different waysTo love me, to love you

(To love me, to love you)
To love me, to love you
(To love me, to love you)
To love me, to love you
(To love me)
To love me, to love youTo love me, to love you
To love me, to love you
To love me, to love you
To love me, to love you
To love me, to love you
