

Sweet Wet Dreams

[Mando Diao](#)

I'm alone, together with sweet wet dreams
Don't let go never lose it, just holding on to sweet dreams
You were the one to open up me
Long time ago, so far away
No I don't want to get down on my knees
I'm letting my mind just drift away I'm alone, together with sweet wet dreams
Don't let go never lose it, just holding on to wet dreams
Left you because you came too close to me
I just couldn't take the blame you gave
But I can't forget how we held each other up
I want you but only for your spice I'm alone, together with sweet wet dreams
I'm alone, together with sweet sweet dreams I'm alone, here I stay, just holding on to sweet dreams
Don't let go never lose it, just holding on to wet dreams
