We Had It All

Vince Gill

We closed down the Border Cantina
And drank margaritas till dawn
You were my sweet senorita
And I was your handsome Don JuanWe danced like there was no tomorrow
We laughed and we lived and we loved
That moment in time that we borrowed
Never did last long enoughYeah, we had it all going our way for a little while
We had it all, right in the palm of our hands
We had it all going our way for a little while
Oh, how I wish, we could go back there againWe thought we were too young to marry
Slowly we drifted apart
Well baby, I miss you like crazy
Those memories still burn in my heartOh, let's find a way to rekindle
That flame that burned long ago
These days just can't hold a candle
To those sweet nights in old MexicoYeah, we had it all going our way for a little while
We had it all, right in the palm of our hands
We had it all going our way for a little while
Oh, how I wish, we could go back there againYeah, we had it all going our way for a little while
We had it all, right in the palm of our hands
We had it all going our way for a little while
Oh, how I wish, we could go back there againYeah, we had it all going our way for a little while
Oh, how I wish, we could go back there again
Oh, how I wish, we could go back there again
