Falling Down

The F-Ups

You're outta line
You're always fucking with my mind
You always waste my fucking time
But now that shit's doneYou take your time
You always tell me to hurry up
I plainly just don't give a fuck
You're stuck in the mudLet's take it back to where it was before
I wanna be a whore
You push me down and I get up off the ground
You really get around, you're falling down
Don't you know you're fucking falling downFalling down
