Autumn Tactics

Chicane

Deep river runs it's course to a warm horizon
Shadows of falling leaves
October moon and rusty skies, ever changing feelings
The seeds of autumn in my mindThe hiding sun, like the hiding sun
Feels like it's just begun
The hiding sun, like the hiding sun
Waiting for summer sunHiding summer's age no more
No more leaves in summer sky
Turning dark on empty carlots
When summer was my only friendSail back this way again
Winter's one breath away
Sail back this way again
Winter's one breath away
It's turning coldLike the hiding sun, like the hiding sun
Feels like it's just begun
The hiding sun, like the hiding sun
Waiting for summer sunThe hiding sun, like the hiding sun
Feels like it's just begun
The hiding sun, like the hiding sun
Waiting for summer sunThe hiding sun, like the hiding sun
Feels like it's just begun
