Testify (feat. Crystal Waters) [Sandy Rivera Dub]

Hifi Sean

Tell me what you mean by
Loving me ouh high up.
And show me what those days are
You wanna give me what you got I must confess
I got my dreams I got my dealings
Something to believe in
careful how you treat me
oh you know
I'm just a lonelly soul sister searching for a minister.
I got my rope, my rose.
Now take me to your river
and make me your water.
And preach to me, tell me why I need your love, Why I have to have your love
Just define your love.
Make me your believer.
Tell me what you mean by
How I ain't living right yet
And tell me again when you are
You wanna take all this fight
I got two fists
I got my dreams I got my dealings
Something to believe in
careful how you treat me
oh you know
I'm just a lonelly soul sister searching for a minister.
I got my rope, my rose.
Now take me to your river
and make me the water.
And preach to me, tell me why I need your love, Why I have to have your love
Just define your love.
Now take me to your river
and make me the water.
And preach to me, tell me why I need your love, Why I got to have your love
Just define your love.
Make me your believer
I'm sure you say one day you'll be my love, my life, my gurdian light.
My pillar of strength I call you home I rock my stone.
Now take me to your river
and make me the water.

And preach to me, tell me why I need your love, Why I got to have your love
Just define your love.
Now take me to your river
and make me the water.
And preach to me, tell me why I need your love, Why I got to have your love
Just define your love.
