

Don't You Forget It

[Nick Waterhouse](#)

Far away from the life so young
That's when you used to know
Many dreams since then you've had have come and gone
The time might show
But stress, don't you let in, don't you forget it
Trust you'll find your way love
Hope is what your heart is made ofAnd don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl
Hold on to your worldYou're world's apart from first where life would start
Understanding what it means to have gone
Nothing but your heavy broken heart
Memories of what used to be
With change comes responsibility
Don't forget where you are and where you've been
Life's lessons then made you into womanAnd don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl
Hold on to your worldHold on, hold onDon't you be afraid 'cuz a heartbeat away
It's all that and everything
That send men and women to you
Don't need to cry, you can dry your eyes
'Cuz you can count on the love that through the yearsCaptured fears you'll face, can subside your tears
Everything will be okay, don't you be afraid
No no no no, la la la, la la la
Don't you be afraid, no babyAnd don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl
Hold on to your worldAnd don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl

Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
And don't you forget it
Don't you forget your way home for that little girl
Hold on to your world
