

# It Doesn't Matter

## Blue Meanies

You want to go a walking but you don't have any shoes now  
Take my advice, yah, leave 'em behind  
You want to go a swimming but you ain't got no suit now Take my advice, yah, swim in your mind  
You want to go a riding but you ain't got no suit now  
Take my advice, stand up for your rights You want to find fulfillment in a three dollar hit now  
That might be funny but it just ain't it Animal, vegetable, mineral  
We are all of the latter, all of the latter  
Take us just for who we are  
But if you don't It doesn't matter, it doesn't matter  
It doesn't matter, it doesn't matter Yah, you want to be a skinhead but you got too much hair  
Yah, take my advice, you'll just go square  
You want to be a driver but you ain't got no clothes now Take my advice, you'll just grow old  
You wind up on your soul by looking to the sky  
Take my advice, you'll find it inside You want to find fulfillment in a three dollar hit  
That can be really funny but it just ain't it Animal, vegetable, mineral  
We are all of the latter  
Take us just for who we are  
But if you don't It doesn't matter, it doesn't matter  
It doesn't matter, it doesn't matter You want to go a walking but you don't have any shoes now  
Take my advice, leave 'em behind  
You want to go a swimming but you ain't got no suit now Take my advice, swim in your mind  
You want to go a riding but you ain't got no suit now  
Take my advice, stand for your rights You want to find fulfillment in a three dollar hit  
Well that might be funny but fucks that shit Animal, vegetable, mineral  
We are all of the latter  
Take us just for who we are  
But if you don't It doesn't matter, it doesn't matter  
It doesn't matter, it doesn't matter It doesn't matter, it doesn't matter  
It doesn't matter, it doesn't matter It doesn't matter, it doesn't matter  
It doesn't matter, it doesn't matter
