

# Know Your History

Advisory - the following lyrics contain explicit language:

You want to take a stand  
You haven't made a plan  
Your new crusades bring misery  
Better know your history You spot your war disease  
Bring this nation to its knees  
The largest debt we've ever seen  
Better know your history Under the burning sun  
Another dead hero  
This road we're walking on  
To reap what we have sown  
(Oh) Lockdown, lockdown, here we go again Foreign aid with strings attached  
Cut down on the working class  
The World Bank creeps  
In sheep's clothing  
Better know your history The masses, so dent and blind  
We're back to the Roman times  
The truth is now the enemy  
Better know your history My family lived through both regimes  
The rising tide of lies and mass deceit  
They'll tell you what to think  
And what to say Know your history You send the poor to fight  
Then praise the religious right  
A sacrilegious blasphemy  
Better know your history An empire of greedy thieves  
Bring the nation to its knees  
The new world corporatocracy  
Better know your history History  
For the past to repeat  
Is your destiny  
History  
I know we're going to pay  
To history
