702

Something about you, I can't live without  
Want you to be with me, yeah  
Got me losing control and I can't let you go  
Here is where you need to be, yeah Feeling your energy and it's killing me  
My baby, I like your steel  
You been moving me so drastically  
I'll do anything you please Only you on my mind and it's hard to define  
What makes me into you  
Just like Venus and Mars we were written in the stars  
I think we should continue Maybe I should just fake it cause, boy, I can't take it  
This can't be circumstance  
I'm in disbelief so many feelings  
And love deserves a chance Feelings, nothing but these funny, funny feelings  
Everything about you is appealing  
Nothing but these funny, funny feelings  
Amazing feelings Infatuation got me doing strange things  
We should think about forever maybe  
Nothing but these funny, funny feelings  
Feelings From the limp in your walk and the slang in your talk  
Just your style overall is sweet, yeah  
From your head to your feet, kissing you makes me weak  
You make me wanna be sneaky With your sexy eyes, oh I can't deny  
Got me hypnotized so deep  
You're my type of guy, hitting you gets me high  
Sing a love affair with me I just wanna be your only queen  
On the throne of eternity  
Cause our chemistry is amazingly  
Overall a growing seal I can't run from my heart  
You were mine from the start  
Just until I let you breathe Whatever you're just my type  
And I gotta be your wife  
Cause I need you in my life Feelings, nothing but these funny, funny feelings  
Everything about you is appealing  
Nothing but these funny, funny feelings  
Amazing feelings Infatuation got me doing strange things  
We should think about forever maybe  
Nothing but these funny, funny feelings  
Feelings, feelings Feelings, my feelings, oh yeah  
Strange things, so amazing, yeah

Strange things, so amazing Feelings, nothing but these funny, funny feelings

Everything about you is appealing

Nothing but these funny, funny feelings

Amazing feelings Infatuation got me doing strange things

We should think about forever maybe

Nothing but these funny, funny feelings

Feelings, feelings Feelings, nothing but these funny, funny feelings

Everything about you is appealing

Nothing but these funny, funny feelings

Amazing feelings Infatuation got me doing strange things

We should think about forever maybe

Nothing but these funny, funny feelings

Feelings
