

# Never Click ( album , "The Buried Life", 1993 )

## Medicine

It's too late to call a doctor  
I know something you don't know  
You have swallowed something awful  
I know something you don't know  
It's too sad to watch a feeling  
Disappear from sight, you know  
It's too late[Chorus]  
Leave this house don't be slow  
I know something you don't know  
Leave this house and make it quick  
Well never click If you know the sickness started  
It's a crime to hold it in  
If you know your hearts deflated  
It don't wash to hold it in[Chorus]
