Riot Act

Exodus

Rise up and revolt, overthrow the government
Level all the temples, destroy the monuments
Return to anarchy, defy the Christian law
Prepare for mutiny, prepare for coup d'etatSo begins our final riot act
Now that you're in, there'll be no turning back
Smash everything, wreck it all with pride
The power of our revolution won't ever be deniedReduce the halls of power to ruin and to ash
An end to Christianity, an end to holy mass
The dawn of an iron age, return to pagan law
Lex Talionis, we rule by fang and clawSo begins our final riot act
Now that you're in, there'll be no turning back
Smash everything, wreck it all with pride
The power of our revolution won't ever be denied
