

Fever Dreams

Hardline

The moon dont shine and I dont see my road again
Wheres the light at the end where is my life lost
An ancient call, darkness fall around me
Spirals and fire, youd put me higher again.
Where am I now? What should I see beyond?
No shining star to light my way home

Chorus:

Stone cold, heart of gold, set me free
Dark night, poison bite, fever dreams
Dj vu I cant see trough
Leave me alone
A later dawn, brightness gone
Fever dreams
No edge on this town, only despair around
No candle to burn, where should I turn?
The day is gone and like a swan I sing my last song
Devils daughter awaiting your slaughter, youre lost.

Chorus:

Stone cold, heart of gold, set me free
Dark night, poison bite, fever dreams
Dj vu I cant see trough
Leave me alone
A later dawn, brightness gone
Fever dreams
