Whip

Nasum

The concept of labor
Is a new thing for manHow did it all begin?
How did we die so fast?8 hours a day
Hasn't always been like this
We used to be free
We could roam the lands as we wishedHow did it all begin?
How did we die so fast?An upper-class invention
To put us all in chains
Enslavement, obliteration
And now we're deadIndustrialized society
A gaping sore in history
One whip to rule them all
In the name of progress
