

Whip

Nasum

The concept of labor
Is a new thing for man How did it all begin?
How did we die so fast? 8 hours a day
Hasn't always been like this
We used to be free
We could roam the lands as we wished How did it all begin?
How did we die so fast? An upper-class invention
To put us all in chains
Enslavement, obliteration
And now we're dead Industrialized society
A gaping sore in history
One whip to rule them all
In the name of progress
