

# It's Only Love That Gets You Through

Sade

Girl you are rich even with nothing  
And you know tenderness comes from pain  
It's amazing how you love  
And love is kind and love can give  
And get no gain It's down a rugged road you've come  
Though you had every reason  
You didn't come undone  
Somehow you made it to the other side  
You didn't suffer in vain You forgive those who have trespassed against you  
And you know tenderness comes from pain  
It's amazing how you love  
And love is kind and love can give  
And love needs no gain It's down a rugged road you've come  
Though you had every reason  
You didn't come undone  
Somehow you made it to the other side  
You didn't suffer in vain
