

# Black Forest

## Hate Forest

God of evil of the clustering hell  
If I fade as I grave  
I talked to myself for the ultimate pain  
God fall in your command On the direction  
The Lord will ever believe me  
Several oppression  
Make me prickless I command the fortress of darkness  
Bring the eternal power on me On the direction  
The Lord will ever believe me  
Several oppression  
Path of hell regressed now I walk in the darker forest  
We live and regret, pounding the doom  
Abounding itself from the goal  
And all the blind are alone
