

WHAT IT FEELS LIKE

Prince

Been a couple hundred hours since he got your call
You use to treat me like David, but now I feel like Saul
Been making it rain all around the world
What difference does it make when the boy ain't got his girl? This is what it feels like
This is what it feels like
(This is what it feels like, babe)
This is what it feels like, babe
(This is what it feels like)
This is what it feels like
(This is what it feels like, babe) Your name's not David and it sure ain't Saul
Maybe you have no business writing on my wall
Springtime on the Philistines before the middle of the fall (Middle of the fall)
Silly rabbit needs to stop doin' tricks if you wanna get my call This is what it feels like
This is what it feels like
(Oh oh) This is what it feels like, babe
This is what it feels like, babe
Oh this is what it feels like
Oh this is what it feels like, babe
This is what it feels like, babe Everybody goes up and down in a lifetime love affair
Makin' up, just breakin' up and pullin' each other's hair
What I wouldn't give to have you right here next to me
Show you want I really feel about you, well listen and you will see This is what it feels like
This is what it feels like, babe
This is what it feels like, babe
This is what it feels like
This is what it feels like yeah, yeah
This is what it feels like, babe
This is what it feels like, babe The art of seduction, you and me is the right equation
And all you need to reach my lovin' is why I stared down a muffin
I can't wait to be your baby, baby, here I am just take me This is what it feels like
This is what it feels like, baby
This is what it feels like
This is what it feels like
This is what it feels like
This is what it feels like, babe
This is what it feels like
This is what it feels like, babe
This is what it feels like
This is what it feels like, babe

This is what it feels like, babe (this is what it feels like, babe)
