

# Next To Nothing

## Breaking Benjamin

Beneath this wave  
I just can't take your breath away  
You cut me down  
You know I'll always be around  
So now I wait  
I know you'll live another day Come and take my breath away  
Look me straight in the face Cause you know it's over  
Growin' colder  
I need something  
Leave me next to nothing All we ever wanted  
I need something  
Leave me next to nothing  
Next to nothing I cut you down  
I know you'll always be around  
So now you'll wait  
I know you'll live another day Come and take my breath away  
Look me straight in the face 'Cause you know it's over  
Growin' colder  
I need something  
Leave me next to nothing All we ever wanted  
I need something  
Leave me next to nothing  
Next to nothing
