

# Love This Pain

## Lady Antebellum

She's no good for me, I know that she's a wildflower  
She's got a restlessness, a beautifulness, a thing about her  
But here I am again calling her back  
Lettin' her drive me crazy  
It's like I love this pain a little too much  
Love my heart all busted up  
Something 'bout her, we just don't work  
But I can't walk away, it's like I love this pain  
It's just an on again and off again situation  
It's a striking match, a tank of gas combination  
But here I am again lightin' it up  
Knowing that she'll just burn me  
It's like I love this pain a little too much  
Love my heart all busted up  
Something 'bout her, we just don't work  
But I can't walk away, it's like I love this pain  
It's like I love this life  
When nothing's right, yeah something's wrong  
It's like I'm just not me  
If I can't be a sad, sad song  
It's like I love this pain a little too much  
Love my heart all busted up  
Something 'bout her, we just don't work  
But I can't walk away, it's like I love this pain  
Oh yeah, it's like I love this pain  
I can't walk away, oh no  
It's like I love this pain
