On Top

Mae

I know we both need a change
I thought I had it made
In the worst way
We made our share of mistakes
Like a Hurricane
Oh Bringing me on display
For the world to see, yeah
But would you believe
I'm on top
You were the best
I did know I didn't have
And now that I'm here On Top
Oh there's chance that you're all I have (?)
I'd say you're the luckiest one you know
So why did you even go
In the first place
I'd give whatever it takes
Like A Hurricane
Oh Takin Me On Parade
For the world to see, yeah
But would you believe

I'm on top
You were the best
I did know I didn't have
And now that I'm here On Top
Oh there's chance that you're all I have
On top, On Top
When the fear of heights sets in this time
Looking down like I can just go fly
Hurricane
Oh takin me
On display
For the world to see, yeah
But would you believe
I'm on top
You were the best
I did know I didn't have
See I can only give it to you

When you were on top
Oh there's chance that you're all I have
On top! (x4)
