

Dull to Pause

Junior Boys

With every morning chore
You look around once more
So that your eyes will adjust
To all the grain and dustAll the time, spent over nothing
Seems like you're done
You areI was pacing around
And just recording it down
I had nothing to say
I'm done for another day'Cause I don't want to share you
So don't say goodnight, no
Don't say goodnightIt's too dull to pause
And to remember the cause
It's just too dull to care
So we cue from another mirrorIn the icy edge
We steal our reflections
When we pass on by
When we pass by
