

Everybody Hurts Sometimes

[Pixie Lott](#)

I don't know how to turn it all around
When I feel hopeless can't see my way out
Now I'm so low will I ever get back up
When I am broken and I've just had enough
Pick up the pieces and I'll put myself back together
Crying it out there's no doubt that its got to get better
And it's alright to go in let your tears fall down
When everything crashes to the ground
And it's alright not everybody makes it out alive
Everybody hurts sometimes
Sometimes
