

# Six A.M.

## We Should Whisper!

I've been waiting for the weekend  
Cause I think it's safe to say  
I've had a little too much,  
And we're a little too far

From the thing we used to be.I could say that I'm alright  
With the way things had to go

But I'm a little tied up  
And a little slowed down

From the things I'll never know\*prechorus\*  
Show me a sign, so I'll realize

It's over, is it over?Show me a sign, so I'll realize  
It's over

\*end chorus\*\*chorus\*

It's Six in the morning,  
I'm counting the sheep

Convincing my self that I need to get some sleepBut I won't cause I can't and you don't  
Really even give a damn

About the fact that

I miss you.\*end chorus\*Is it wrong of me to say that  
In the end it's for the best

Because I know you never knew  
All the shit that you would do

Would be the very end of us.And we tried our best to hold on  
But there was nothing we could do

At the end of everything

It doesn't matter what we need

All I know is that we're through\*prechorus\*  
Show me a sign, so I'll realize

It's over, is it over?Show me a sign, so I'll realize  
It's over

\*end chorus\*\*chorus\*

It's Six in the morning,  
I'm counting the sheep

Convincing my self that I need to get some sleepBut I won't cause I can't and you don't  
Really even give a damn

About the fact that

I miss you.

\*end chorus\*You know what I know  
Turn around, Turn around,

Cause we're running from ourselves You know what I know

Turn around, Turn around,

Cause we're running from ourselves\*chorus\*

It's Six in the morning,

I'm counting the sheep

Convincing my self that I need to get some sleep But I won't cause I can't and you don't

Really even give a damn

About the fact that

I miss you.

\*end chorus\*
