

Green Light Girl

Doyle Bramhall II

Pretty thing outta be
She's gonna? leave em? sorry
She's a sweet and sour Miss
Too hot to handle now
Spend all night
In a red hot town
Lookin? for a green light
Green light girl
Lookin? for a green light
Green light girl

All the boys want you
Your better at despair
Just smiles and rolls her eyes
In a rock and roll uprise
Touch her if you want to
She's a girl of the d___amn
Talkin? bout a green light
Green light girl
Talkin? bout a green light ? yah baby
Green light girl

Green light
Green light girl
Green light yah baby
Green light girl I'm talkin? bout
Green light
Green light
Green light
Green light come on now
