

Ballin

The Fooo Conspiracy

Ey, The fooo, conspiracy lets go
When I hit the scene, ya'll know just who I am
Swinging for the friends girl I can this little game
I'm your local boogie-man, I fooogreen the thang [?]So look theres somethin your face if you didn't try it
I make them just run down your spot, don't you dare deny it
Spilling terror in the dark up in to the early morning
Now you see us, now you don'tI'm walking real fly with my head held high
Jase on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid bulling this hardWalking real fly with my head held high
J's on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid ballin this hardWhen we hit the set got this botocks out for days
Making twisting necks like we're straight from out of space
Fare enough you block kicking haters in the faceSo look this cool brain the eyes if you dare to try it
We got this bosers running scared to there mommys crying
Like a shutgun with a candycove, we're a secret wep
Watch us take over the setI'm walking real fly with my head held high
J's on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid ballin this hardWalking real fly with my head held high
J's on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid ballin this hardWe're always on the run, there never standing still
We've ballin out so knocked it down
And got no time to chill
The foooers got our backs
Aint nothing they won't do
And when were on this stage right here
They scream they love the fooo
Because we grind ourselves a peria
Don't get spiriad, tell me if you hear me though
Thats into the sterio
Nothing gets up we feel so alive, music say something
Tha day I will die
In the fooo, we all trust put your damn heads upI'm walking real fly with my head held high
Jase on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid bulling this hardWalking real fly with my head held high

Jase on my feet and a big white smile
Starting like a boss with a shiny black card
You never seen a young kid bulling this hard
