

A.w.o.l.

Scribe

I never see you anymore, you're absent without leave
In life I learned a lot of things and what it brings to ya
And how it's good to be alone sometimes
I should've known you'd get an itch and you would switch on me
And runaway when day turned into night
'Cuz you're a good time sister, always out for something better
Just when I need a friend, you're absent without leave
Good time brother, called you friend when I knew better
Ain't got no time to spend, you're absent without leave
So many people that I found say they're down with ya
Then like a ship they sail on with a breeze
See in the sun, they get a touch and it's too much for 'em
They fall around you like the winter leaves
A little rain and they would run for cover
(I can still remember)
When no one else could see the need to shelter
(How could I forget?)
And knowing better times were round the corner
(Oh, I can still remember)
So now when summer skies turn into gray, here's what I say
Good time sister, always out for something better
Just when I need a friend, you're absent without leave
Good time brother, called you friend when I knew better
Ain't got no time to spend, you're absent without leave
Good time sister, always out for something better
Just when I need a friend, you're absent without leave
Good time brother, called you friend when I knew better
Ain't got no time to spend, you're absent without leave

I, I never hear, I never see you
(I never hear)
I never hear, I never see you no more
I never hear, I never see you
(I never hear)
I never hear, I never see you no more
I, I never hear, I never see you
(I never hear)
I never hear, I never see you no more
I never hear, I never see you

(I never hear)

I never hear, I never see you no more

Good time sister, always out for something better

Just when I need a friend, you're absent without leave

Good time brother, called you friend when I knew better

Ain't got no time to spend, you're absent without leave

Good time sister, always out for something better

(Absent summer brother)

Just when I need a friend, you're absent without leave

Good time brother, called you friend when I knew better

Ain't got no time to spend, you're absent without leave

Good time sister, always out for something better

Just when I need a friend, you're

(Yeah, ain't got no time to spend, you're)

Absent without leave

Good time brother, called you friend when I knew better

Ain't got no time to spend, you're absent without leave
