

Sex Music

Tank

Intro:

If you sexy and you know it
And you sexy and you show it
Lemme see you get your hands in the air

If you sexy and you know it
And you sexy and you show it
Just wave em' like you just don't care

Verse 1:
We don't need no clothes for this

They be on the floor for this

All up on the pole for this

Dropping down low for this

All up on the side with this

All between her thighs with this

Imagine how she ride with this

Wait 'til I'm inside with this oh, oh I know it's turning you on, on

Didn't think it take us this long, long

To have our bodies going crazy to the beat of this song, oh

Chorus:
We get it on, ah ah all night long

To this sex music, sex music

Don't stop, that's it, right there, that's my shit

To this sex music, sex music

Verse 2:
We got plenty time for this

All that's on my mind for this

All day on the grind for this

Ima make you mine to this

Patron and a lime with this

Hope you get right to this

'Gon and close your eyes to this

Love the way you bite your lip I know it's turning you on, on

Didn't think it take us this long, long

To have our bodies going crazy to the beat of this song, oh no

We get it on, ah ah all night long

To this sex music, sex music

Don't stop, that's it, right there, that's my shit

To this sex music, sex music
